

MOHAMMADSAANI SAYYAD

Data Analyst

☎ +918149268024 ✉ saanisayyed@gmail.com  [LinkedIn](#)  [Portfolio](#)  [GitHub](#) 📍 Pune

Summary

Aspiring Data Analyst with a strong foundation in **SQL, Python, Excel** and **Power BI**. Skilled in **data cleaning, EDA, SQL querying** and **interactive dashboard development** to transform raw data into actionable business insights.

Skills

Programming: Python, SQL

Python Libraries: Pandas, NumPy, Matplotlib, Seaborn

Data Visualization: Power BI, Excel Charts, Dashboards

Database: MySQL

Tools: Jupyter Notebook, Google Colab, Git, GitHub

Concepts: EDA, Data Cleaning, Data Wrangling, Business Intelligence

Projects

BigBasket Product Analysis | *Python, Power BI*

- Cleaned and transformed a dataset of **27,000+ BigBasket products** by removing duplicates, handling missing values, and engineering new features such as discount amount and discount percentage.
- Created **10+ analytical visualizations** (bar charts, histograms, KDE plots, and comparative analyses) to evaluate pricing trends, product distribution, discounts, ratings, and brand performance.
- Designed and developed an interactive **Power BI dashboard** to visualize KPIs including product categories, pricing, discounts, ratings, and brand-wise analysis for business decision-making.
- Identified **top-performing product categories, highest-rated brands, and products with the largest discounts** through category-wise and brand-wise analysis, supporting pricing and promotional strategy decisions.

Customer Shopping Behavior Analysis | *Python, SQL, Power BI*

- Cleaned and prepared **3,900 customer** shopping records using **Python (Pandas)** by handling missing values, standardizing column names, and performing exploratory data analysis.
- Developed **10+ SQL queries** using aggregate functions, subqueries, CTEs, and window functions to analyze customer spending, subscription behavior, product ratings, and purchasing patterns.
- Designed and developed an interactive **Power BI dashboard** with KPIs, customer segmentation, spending trends, product performance, and regional insights to support business decision-making.
- Identified key insights on **customer segments, subscription impact on revenue, top-rated products, discount effectiveness, and purchasing frequency**, enabling data-driven marketing and sales strategies.

Achievements

- **Solved 100+ LeetCode Problems:** Solved over 100 problems covering SQL, Data Structures, and Algorithms, strengthening analytical thinking and problem-solving skills.

Certifications

- **HackerRank SQL (Basic) Certificate:** Demonstrated proficiency in SQL fundamentals, including joins, aggregations, filtering, and data retrieval.
- **HackerRank SQL (Intermediate) Certificate:** Validated advanced SQL skills in window functions, common table expressions (CTEs), subqueries, and complex query writing.

Education

Bachelor of Engineering (Computer Engineering)

Amrutvahini College of Engineering, Sangamner

Graduated: 2025

CGPA: 7.76 / 10
